MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: CIA Legislative Proposals FY/58

REFERENCE: Memo from Legislative Counsel, subject as above,
dated 14 August 1956

1. Current proposed Agency legislation (S. 3851 and H.R. 10632) and other related legislative proposals have been reviewed and considered in relation to the Legislative Counsel's comments and from the point of view of this Office, to formulate a desirable and acceptable Agency legislative program for submission during the early stages of the next session of Congress.

2. In formulating a legislative program, two concurrent avenues of approach are indicated: the first would involve the inclusion in a package CIA bill, planned and individually defined objectives upon which we have reached internal agreement e.g., a current version of our bill of the last session of Congress; the other involves our concurrent support of other legislation in which we feel that we have an interest and which would provide us with an advantage.

3. Our comments as related to particular subjects in which this Office has an interest and feels qualified to speak are contained in the attachment.

Harrison G. Reynolds
Director of Personnel
